INTRODUCTION

The information contained in this report was compiled from the Annual Public Library Statistical reports which were filed with the Connecticut State Library for the fiscal year ending June 30, 1981.

In order to qualify to receive a state aid payment public libraries are required by law to submit a completed statistical report with the Connecticut State Library no later than October 1 of each year.

Statistics from 38 public libraries which received state aid payments in Fiscal year 1982 are not included in this report. This is a result of a change in the date by which libraries are required to report from June 15 to October 1. During this transitional year only those libraries with a fiscal year ending June 30, 1981 were required to submit statistical reports. All others received payment based on their last completed fiscal year prior to June 30, 1981. A list of these libraries is included in this report.

A full compilation of statistical reports for all public libraries receiving state aid will be available in the 1983 Report.

This report contains statistics from 155 public libraries located in 138 towns. There are in total 200 public libraries in Connecticut. Seven libraries do not currently apply for state aid payments.

A new addition to this year's report is a listing of state library staff and their phone numbers. This can be found inside the front cover.

In producing this year's report the editor wishes to thank the following state library staff members for their assistance: Nancy T. Browdy and Beverly Jenkins, Division of Library Development; Dorothy Many, Graphics Section; Katharina Mayer, Mary Coughlin and Linda Wilscam, Photoduplication Section.

Leslie Berman Burger
Department of Planning & Research
May, 1982

HOW TO USE THIS REPORT

This report is divided into two sections. The first section is a summary table which presents information about the total number of volumes held, total circulation activity, total income from all sources and total operating expenditures for the 155 public libraries completing the statistical report. Averages are computed to determine volumes held per capita, circulation per capita and operating expenditures per capita. All averages have been computed by using a total population of 2,848,446 as reported by the 155 public libraries completing the report. The second section contains data for each of the libraries which submitted a statistical report. These data are arranged alphabetically by town. Data are compiled in the following categories:

a. Population - Population figures are those reported in the 1980 U.S. Census.

b. Volumes - This number reflects the total number of volumes held by the library as of June 30, 1981.

c. Volumes per capita - The total number of volumes held is divided by the total town population to determine volumes per capita. In towns where there are more than one public library the volumes per capita is not calculated.

d. Circulation - This number reflects the total number of items of all types circulated by the library as of June 30.

e. Circulation per capita - The total number of items circulated is divided by the town population to determine circulation per capita. In towns where there are more than one public library the per capita circulation is not calculated.

f. Total Income - This number reflects income reported from the following sources: Town appropriation, contract services, LSCA funds, state aid grant, connecticard reimbursement, income from endowment, trust, invested funds, cash gifts, petty cash, and other sources

g. Income from town - This number reflects income provided from town tax support.

h. Total Operating Expenditures - This number reflects expenditures made in the following categories: Salaries, library materials, library equipment and supplies, building maintenance, and other operating expenses.

i. Expenditures per capita - Total operating expenditures are divided by the town population to determine the total operating expenditures per capita. In towns where there are more than one public library the operating expenditures per capita is not calculated.

j. Salaries - This number reflects salaries and may include expenditures for fringe beneifts reported by the libraries for the year ending June 30.

k. Books, Binding and Periodical - This number reflects library expenditures in the following categories: books, a-v materials, periodicals and binding.

1982* SUMMARY TABLE

TOTAL NUMBER OF VOLUMES	9,430,026
VOLUMES PER CAPITA**	3.1
TOTAL CIRCULATION	17,202,196
CIRCULATION PER CAPITA**	5.6
TOTAL INCOME***	$35,225,391
TOTAL TOWN APPROPRIATION	$29,982,232
TOTAL OPERATING EXPENDITURE	$33,105,531
OPERATING EXPENDITURE PER CAPITA**	$10.84

*Based on 1981 statistics reported from 155 public libraries.

**All per capita computations are based on total population of 2,848,446 as reported by 138 towns.

***Income includes town tax support and other than town support.
